## **DETAILED ACTION**

### ***Response to Amendment***

The Amendment, filed on July 7, 2006, has been entered and acknowledged by the Examiner.

Cancellation of claims 4, 11 and 12 has been entered.

Claims 1-3, 5-10, 13 and 14 are pending in the instant application.

## **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Joseph W. Price on July 13, 2006.

The application has been amended as follows:

### **In the claims,**

Claim 6, line 1, delete "claim 4" insert -- claim 1--,

Claim 9, line 1, delete "claim 4" insert -- claim 1--.

### ***Allowable Subject Matter***

Claims 1-3, 5-10, 13 and 14 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance:

The amendment to independent claim 1 has overcome the outstanding rejections.

Art Unit: 2879

Regarding claim 1, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 1, and specifically comprising the limitation of an arc tube having a double spiral construction including a glass tube wound from a middle to both ends thereof around one axis and wherein the ends of the glass tube are inserted to such positions that enable each filament coil to be positioned within the holder, and a minimum distance L1, in an insertion direction of the ends of the glass tube, between each filament coil and an edge of corresponding one of the insertion openings is in a range of 0 to 10 mm inclusive.

Regarding claims 2-3 and 5-10, claims 2-3 and 5-10 are allowable for the reasons given in claim 1 because of their dependency status from claim 1.

Regarding claim 13, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 13, and specifically comprising the limitation of the arc tube is thermally connected to the globe via a heat conductive medium, at a coolest position of the arc tube during lighting, or a position in a vicinity of the coolest position. Claim 14 is allowable for the reasons given in claim 13 because of its dependency status from claim 13.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
